

# The LevrX Practice App™

Enhance value-based programs, improve member satisfaction, and ease administrative burden.

**77% of doctors** cannot accurately advise on patient out-of-pocket costs<sup>1</sup>

Practice staff spend **16+ hours/week** on PAs<sup>2</sup>

**67% of non-adherent patients** reported **high costs** as the reason<sup>3</sup>

## Who Does It Help?

**Practices:** Streamline medication review, prescribing a new drug, and PAs.

**Members:** Receive the best drug based on their insurance benefit and complete medical history.

**Payers:** Decrease Rx spend and improve quality of care.

## How Does it Work?

The LevrX Practice App delivers multi-payer data and patient insights at the point of prescribing via a digital platform integrated with their EMR.

## How Is It Different?

The LevrX Practice App is the most informed solution available with multi-payer data, patient-specific formulary and pricing, and two-way EPA integration to ensure members are prescribed the best option.
