

## Job Description: Clinical Pharmacy Analyst

Reports to: Sr. Clinical Pharmacist

Location: Troy, NY

LevrX Technology Inc. is an exciting customer driven and results focused healthcare software application company that is providing the healthcare industry with levers to optimize pharmacy outcomes. Our mission to develop powerful, relevant, and unique solutions is fueled by our commitment to our customers to improve the patient experience and reduce the cost of care.

LevrX is seeking a licensed pharmacist to serve as the clinical subject matter expert on the Solutions team. The Clinical Pharmacy Analyst will work with cross-functional teams to analyze pharmacy cost of care, prescribing trends, and recommend appropriate use guidelines. The Clinical Pharmacy Analyst is expected to possess a strong clinical knowledge base, kept current through continuing education and professional affiliations.

The responsibilities of the Clinical Pharmacy Analyst include but are not limited to:

- Create and maintain a repository of clinically relevant prescription information.
- Collaborate with data analysts to create utilization reports.
- Develop and implement clinically sound processes that further advance our commitment to our clients.
- Support our clients in executing their cost reduction and quality improvement strategies.
- Respond to provider requests for clinically appropriate drug alternatives.

List of essential capabilities:

- Serve as clinical resource for data analytics, software development, marketing, and sales teams
- Develop drug strategies that are both clinically and financially strong
- Excellent Communication skills for engagement with Providers and other Health Care Professionals
- Up-to-date clinical skills

Minimum Qualifications:

- Bachelor's degree or advanced degree (Pharm.D., M.S.) in pharmacy.
- Current active Pharmacy license in New York state
- Advanced Knowledge of Excel

Preferred Qualifications

- Experience working with Pharmacy Benefit Manager or Health Plans
