

**Job Title:** Specialty Clinical Pharmacist

**Reports to:** SVP, Solutions Management

**Location:** Troy, NY

LevrX Technology is an exciting customer driven and results focused healthcare software company that is providing the healthcare industry with levers to optimize pharmacy outcomes. Our mission to develop powerful, relevant, and unique solutions is fueled by our commitment to our customers to improve the patient experience and reduce the cost of care.

LevrX is seeking a licensed pharmacist to serve as the clinical subject matter expert on specialty medications. The Specialty Clinical Pharmacist will work with cross-functional teams to analyze pharmacy cost of care, prescribing trends, and recommend appropriate use guidelines. The Specialty Clinical Pharmacist is expected to possess a strong clinical knowledge base, kept current through continuing education and professional affiliations.

The responsibilities of the Clinical Pharmacy Analyst include but are not limited to:

- Stay ahead of emerging specialty drug trends, pipeline developments, biosimilar launches, and legislative or regulatory changes. Translate insights into actionable strategy and guidance
- Partner with sales enablement teams to support direct client conversations, proposals, and presentations. Articulate the value of LevrX's specialty clinical model in a clear way.
- Provide expertise in complex medication cases, high-cost claims, and clinical prior authorizations. Evaluate rare or complex disease-state treatment protocols as needed.
- Be the subject matter expert of LevrX's specialty drug management strategies to expand and maintain LevrX's state-of-the-art clinical database.
- Serve as clinical resource for data analytics, software development, marketing, and sales teams
- Educate and support internal teams—product, sales, and operations—on specialty pharmacy nuances, new clinical developments, and the broader clinical landscape.
- Engage with providers by advocating clinically appropriate, cost-saving medication alternatives on behalf of our clients. Utilize professional resources and expertise to support recommendations

**Required Qualifications:**

- Bachelor's degree or advanced degree (Pharm.D., M.S.) in pharmacy.
- Current active Pharmacy license
- Advanced Knowledge of Excel

**Preferred Qualifications:**

- Certified Specialty Pharmacist (CSP) Credentialing
- At least one year of Specialty Pharmacy experience
- Experience working with Pharmacy Benefit Manager or Health Plan
